

2025 Kaepa Product Guide

For 50 years, our commitment to sport has driven us to craft performance footwear that is technologically advanced and creatively superior. We were the first in the sporting goods industry to provide cheer specific footwear technology and democratized cheer footwear by providing authentic products for every level of athlete and price point.

CATALYST

Am 1

Retailers and consumers have been looking for a change in competitive cheerleading footwear. Kaepa's manufacturing expertise and long established design principles are being applied to competitive cheer with new and future products that deliver a higher quality and more affordable product along with a time honored service promise. Kaepa Catalyst footwear is more than an accessory or uniform, it is athletic equipment.

Cheer Equipment Designed for Preparation, Performance and Athletic Excellence

Last

The last comes first! Where others may select an off the shelf option, our design process creates this 3D foot shaped form for each shoe. A well designed last is the basis for performance, ergonomics and fit. The Am 1 last is a compilation of our experience crafting footwear designed for the sport of cheer.

Upper

Selection of upper materials is crucial in maximizing flexibility, breathability, comfort and weight reduction. Our choice for Am 1 is a single mesh with heat sealed support bands. Combined these protect and support without sacrificing your stamina, speed and agility.

Midsole

A thin low-heeled midsole lowers weight and increases flexibility. As the foot is positioned lower to the ground the foot gets better feedback.

Insole and Lining

Creates a layer of additional comfort and durability.

Outsole

The outsole is a major factor in shoe performance and the only contact point between you and the mat. Our proprietary design for the Am 1 prioritizes support, flexibility, weight, traction and durability. The lightest weight possible was attained with high performance materials and their innovative application.

Am 1

6700 Women's Sizes: 4-11, 12, 13, 14
 6700y Youth Sizes 10, 11, 12, 13, 1, 2

Preparation is the Catalyst for Excellence

4.7 ounces

- It takes a lot of energy to lift the foot when tumbling and stunting throughout a performance. A low weight shoe makes it a bit easier; however, a shoe that also provides cushion and support is essential. The Am 1 is the ultimate balance of lightness, flexibility and support without sacrificing your speed, stamina or agility.

Outsole

- Multi-material outsole designed with lightweight components and engineered with strategic placement and thickness to provide maximum flex, traction, support and durability.
 - Cushion Cup, recessed area in heel adds more impact absorption without added weight.
 - Forefoot Spin Pad's bolstered rubber aids durability and allows easy transition and pivot without compromising traction.
 - Transverse Flex Tunnel reduces weight and improves pliability keeping foot in more natural landing position.
- Slim arch utilizes less rubber reducing weight and allows best basing and heel stretch grip.
- Abrasion and slip resistant outsole is easy on the hands and feet and aids stopping, pivot and propulsion.
- 360° radiused transitions between sidewall and sole makes stunt grip more comfortable and removes unnecessary weight. The curved design mimics the way the foot interacts with the floor naturally while tumbling.

Upper

- Designed for lightness, fit and breathability.
- Air mesh sidewalls double as a textured surface for better stunt gripping.
- Scotchgard™ coating repels liquids and blocks stains.
- Secure-fit anchors foot and collar fit through shoe lacing. Keeps foot in place providing better fit, comfort and stability.
- Sleek flat laces and breathable tongue.

Last

- Performance sculpted Catalyst Last provides a sleek fit with fewer air pockets around foot allowing more precise foot control.
- Tailored through the heel, arch and instep for stability while tumbling and stunting.

Midsole

- Raised EVA sidewalls keep foot centered for side-to-side stability.
- Lateral and medial patented Finger Grooves™ and heel notch improve stunt grip, balance and control.
- Soft EVA foam is less stiff, lighter weight, improves shock absorption, toe pointing and foot flexibility.

Insole and Lining

- Fixed insole provides cushion without hindering ability to sense the ground.
- Premium lining adds comfort and keeps heel secure.
- Foam ankle cushion pads on medial and lateral side for improved fit and comfort.

TRIUMPH

Available April 2025

Advanced support, fit, and traction technologies ◀

DESCRIPTION

Low-Profile Sole lowers your foot's center of gravity resulting in improved balance and exceptional stability for every stunt.

All-New High-Traction Sole: The innovative Kaepa wavy outsole pattern and rubber compound maximizes traction and control, giving you the grip you need on any surface.

Breathable Construction: Engineered with highly breathable materials and strategic ventilation, these shoes keep feet cool and comfortable through even the most intense routines.

Cushioned Midsole: Experience superior shock absorption with our cushioned midsole, which helps protect joints and enhances comfort with every step.

Flexible Forefoot: Enjoy flexibility for toe-pointing, tumbling, and intricate footwork, allowing you to stay agile and on-point.

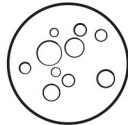

Reinforced Ankle Support: Built with extra support around the ankle to stabilize your foot during high-impact landings and complex stunts.

Precision Fit: Designed to hug the foot securely, offering a custom feel that keeps the shoe in place for consistent control throughout every routine.

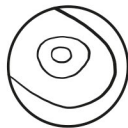

PLUS

Foot 30% closer to the floor for more stability

Waterproof Scotchgard™ coating for cleaner mesh

Premium insole removable with APX heel cushion

Sizes: 10, 11, 12, 13, 1, 2

DETAILS

CHEERLYTE

Multi surface sideline traction Track, Field and Gym ◀

DESCRIPTION

All-Surface design with a durable full rubber multi-traction outsole. Reliable sideline grip and support whether your Team Spirit takes you to the track, field, or gym.

PLUS

Removable eva insole

SIZE

CHEERLYTE WOMEN'S (C6110)

Sizes: 4-11, 12, 13

CHEERLYTE YOUTH'S (C6110Y)

Sizes: 10, 11, 12, 13, 1, 2

Enhanced Stunt Control:
Scalloped arch and rear finger notch secure hand grip for superior control during stunts and lifts.

Patented Snap-In color logo system

Restructured Fit:
A shoe last defines fit and silhouette. Kaepa's Lyte Last is designed to create a lightweight, close-fitting, flexible foundation. Secures the foot in a stable position without sacrificing Jump or High Kick full-flex toe point.

Microfiber Leather Upper:
Durable, improved resistance to water damage vs. traditional leather. Easy to clean.

- o Mix a small amount of a mild, shoe-friendly detergent with water, or use a specialized shoe cleaner.
- o Dampen microfiber cloth with solution and gently wipe the shoes.
- o Wipe with clean, moist microfiber cloth to remove soap solution
- o Use lint free cloth to dry the shoes.

Breathable Inner Mesh lining is specially designed to allow ventilation to keep feet cool and comfortable during practice and performances.

Cushioned Insole: adds soft support for extended wear from School Spirit Day to Pep Rallies to Friday Night Lights.

120 Possible Color combinations with Kaepa's Patented Snap-In . Customize your look for every performance with 15 colors in every box.
